26 Segments Identified in Top 25thile in Anchorage
 Segments 1-10 (Top 5thile) greater than or equal to 15 accidents/5 years or 1.5 accid/MMVM
 Segments 11-27 (Top 25thile) greater than or equal to 8 accidents/5 years or 1.5 accid/MMVM
 Accident rates compiled from sampling all of Anchorage 2000 Middle-Aged ADTs were used to compute accident rates per Million Vehicle Miles
 Segments are ranked by collision frequency first, then by rate of collisions second. They are also divided by top 5 percentile and 25 percentile thresholds.
